5. Glossary of Terms:

UNIQUE USER/BROWSER

A unique and valid identifier. Sites may use (i) IP+User-Agent and/or (ii) Cookie.

This metric does NOT measure a person. Instead, it is a measure of a device through which a person interacts with a web property or network, in common with all measurement software.

Where a Unique User/Browser is calculated by IP+User-Agent, this definition may overstate or understate the real number of individual users (people) concerned due to dynamic IP address allocation (for example by Internet Service Providers) or to significant levels of uniformity in IP and browser configurations operating through a proxy.

MONTHLY UNIQUE USER/BROWSERS

This is the de-duplicated net number of Unique User/Browsers for the month. Unless otherwise stated, the Unique User/Browser data refers to worldwide Unique User/Browsers.

SYNDICATED CONTENT

Content served by a third party into the certified site's Page Impressions, or content served by the certified site into a third party's Page Impressions. Syndicated content may or may not be included in certified traffic.

INVALID TRAFFIC

Traffic generated by site development activity, whether by the site or by third parties, and by automated search engines, indexers, robots, spiders etc.

Note that the global ABCe/IAB list of robots and spiders is available from the ABCe website.

7. Audit Opinion by ABCe

We have examined the activity records and other data required to certify compliance with the industry-agreed JICWEBS standards for the period covered by this Certificate of Activity. Our examinations were made in accordance with established procedures and included such tests and other audit procedures we considered necessary. In our opinion the activity shown in this certificate is fairly stated and the other data contained therein are fairly stated in all respects material to the activity.

While ABCe has conducted checks to gain confidence in the authenticity and validity of the original traffic, we have expressly not audited for fraud or negligence.
